PROFILE

EME ENGINEERING

SERVICES

"One Place, Every Solution"

Who We Are

EME Engineering services was introduced in 2011, when a handful of experts set up a small firm in Islamabad. Just over few years, we are proud to highlight that we are now authorised distributor of the best quality German, British and American brands that we introduce in Pakistan against all Mechanical, Electrical and Chemical requirements.

We focus on:

Quality Imported Products: EME offers competitive prices by maintaining lowest of lead time on delivery.

Construction Equipment: We provide construction companies to complete concrete requirements, Light towers Generators, Concrete Leveling and compaction equipments, concrete cutters and breakers, dewatering pumps etc.

Hand Tools: We Specialize in Hand Tools and have quality ranges from world over. We carry full range of hand tools for construction, oil and gas power plants and automotive.

Power Tools & Accessories: We stock complete range of Power Tools as well as accessories like bits, abrasives and discs of leading brands.

Other material: We also cover building material products, hardware, fasteners, adhesives, pneumatic and hydraulic fittings, motors and pumps, Test instruments, paints, material handling and HVAC products.

EME ENGINEERING SERVICES

Vision

Our long term goal is to be the most sought after company in our area for the products and services we provide with the highest skill and integrity from every team member.

Mission

Every time we serve a customer with excellence, we succeed in fulfilling our calling, and we will have opportunities to create "legends" that will be talked about for years. We want to create raving fans with every customer interaction.

Values

EME Engineering Services places a high value on performance. We measure the success of every project by the expectations of our discriminating customers.

Service

We identify the customers' expectations and strive to exceed them.

Integrity

Our honesty is always, accept responsibility for your actions, be fair.

Improvement

We believe that continuous improvement is a way of life.
